SACHIN KATHERIYA

Senior Software Engineer

devskatheriya@gmail.com | +91 9315561868 | Gurugram, India | linkedin.com/in/skthakurs

SUMMARY

Senior Software Engineer with 6.5+ years of experience in building scalable full-stack applications, with strong focus on performance, secure architecture, observability, and team collaboration. A fast learner and team player driving innovation.

PROJECTS

Hotels Website

MakeMyTrip

- **SEO & Performance Optimization:** Optimized platform SEO traffic and Google ranking by enhancing SSR and overall page performance.
- **Platform Enhancement:** Improved the global hotel booking platform's performance, SEO, and user experience across desktop and mobile.
- **Real-time Tracking & Debugging:** Implemented SSR logs with Scalyr graphs for real-time tracking, simplifying release monitoring and debugging.
- **Code Optimization:** Introduced async reducers, minimizing JavaScript payload and improving page load performance.
- **AI Agent:** Built an AI agent using Google ADK to automate root cause analysis (RCA) for SSR issues.
- **Tech Stack:** TypeScript, React, NodeJS, NextJS, Redux-Thunk, Redux, Webpack, Styled Components, Jest, RestAPI, AI Agents, Google ADK

FNP Ecommerce

Ferns N Petals

- Developed and maintained fnp.com using NextJS with SSR for enhanced performance and SEO.
- Built responsive UI with Material UI and SASS, managed state and API calls using Redux and Redux-Saga.
- Optimized performance to consistently achieve page loads under 3s.
- **Tech Stack:** NextJS, TypeScript, React, Redux, Redux-Saga, Material UI, Webpack, Java, RestAPI.

Wynk StreamReady

Wynk Ltd (through Craterzone)

- Built a responsive online video platform for VOD and OTT content.
- Integrated VideoJS and Shaka Player to enable high-quality streaming experiences.
- **Tech Stack:** React, Git, CI/CD, Redux, Styled Components.

Karmeq Web

Craterzone

- Developed a platform that empowers consumers to make data-driven strategic decisions based on market trends.
- Developed the website from scratch with a fully responsive design.
- Implemented integration testing using Cypress to enhance reliability.

SKILLS

Javascript | TypeScript | ReactJS | NextJS | NodeJS | Python | Java | Express | Redux-Saga | Redux | HTML | CSS | SASS | Webpack | RestAPI | GraphQL | MongoDB | Git | Jest | Cypress | TDD | Docker | AWS | Responsive Design | GenAI | AgenticAI

EXPERIENCE

Senior Software Engineer

MakeMyTrip

Sep 2022 – Ongoing | Gurugram, India

MakeMyTrip is India's leading player for travel bookings.

- Contributed to performance optimization, SEO enhancements, log & tracking implementations, and Hackathon.
- Led end-to-end module development, mentored juniors, and collaborated with product teams on A/B testing.

Software Engineer

Ferns N Petals

Apr 2021 – Sep 2022 | Delhi, India

FNP is India's largest gifting e-commerce and retailer.

- Designed and developed multiple modules for the website from scratch.

Software Engineer

BigOhTech (formally Craterzone Pvt)

Jan 2019 – Apr 2021 | Noida, India

BigOhTech is start-up and one of the leading offshore development company.

- Led end-to-end development of multiple projects, many built from scratch.
- Developed backend services using NodeJS and MongoDB for multiple projects.

EDUCATION

Computer Science Engineering

Dr. A.P.J. Abdul Kalam Technical University

2015 – 2019 | Greater Noida, India
